Developing an Effective Compliance Monitoring Program

Danielle Herrick, CCEP

Biography

Danielle Herrick, Principal, is Americas Compliance Leader for Administration and Outsourcing at Mercer. In this role, Danielle ensures proper compliance support is provided to Mercer's various administration and outsourcing businesses in Canada, Latin America and the United States. She is responsible for implementing a comprehensive compliance monitoring review program, developing and maintaining policies and procedures, managing incidents, conducting periodic risk assessments and participating in various management and compliance committees.

Danielle has been with Mercer since January 2006 and has over 10 years of human resources and compliance experience. Prior to being awarded the role of Americas Compliance Leader for Administration and Outsourcing, Danielle was Americas Compliance Monitoring Leader where she managed compliance monitoring and risk management activities for all Mercer businesses in the region. Before coming to Mercer, Danielle served in various compliance roles for Fortune 500 companies. Her responsibilities included such activities as vendor management, contract negotiations and ERISA, Sarbanes-Oxley and HIPAA Privacy & Security compliance.

Danielle has a Bachelor of Arts in sociology from the State University of New York at Oswego and a Master of Business Administration from Saint Joseph's College of Maine. She is a Certified Compliance and Ethics Professional, a licensed life and health agent, has received her Certification in Control Self-Assessment (CCSA) and is a Senior Professional in Human Resources (SPHR).

Agenda

Overview

Overview

Federal Sentencing Guidelines

§8B2.1. Effective Compliance and Ethics Program

- (a) To have an effective compliance and ethics program, for purposes of subsection (f) of §8C2.5 (Culpability Score) and subsection (c)(1) of §8D1.4 (Recommended Conditions of Probation - Organizations), an organization shall—
- (1) exercise due diligence to prevent and detect criminal conduct; and
 - (2) otherwise promote an organizational culture that encourages ethical conduct and a commitment to compliance with the law.

Such compliance and ethics program shall be reasonably designed, implemented, and enforced so that the program is generally effective in preventing and detecting criminal conduct. The failure to prevent or detect the instant offense does not necessarily mean that the program is not generally effective in preventing and detecting criminal conduct.

Agenda

Return on Investment

Return on Investment

- Making a business case
 - Develop a formal proposal
 - Consider using existing staff and resources
 - Plan to test pilot the program
- Evidencing return on investment
 - Through reporting (improved monitoring results)
 - Better audit results
 - Decrease in the number of incidents (errors, regulatory violations/fines, etc.)
 - Increased program efficiency (possibly decreased cost) over time

Page 7

Agenda

Elements of an effective compliance monitoring program

Key Elements

- A compliance monitoring program should be formal and include the following key elements:
 - Agreed upon scope and strategy
 - Standard tools and templates
 - Reporting
 - Training and communications
 - Continuous improvement

Page 9

Scope & Strategy

- There are multiple approaches that can be taken when implementing a monitoring program
 - Risk based
 - A deep dive into the controls identified for top or key risk areas
 - Reviewing compliance with all policies and procedures
 - A cursory review for compliance with all policies and procedures
 - Combination risk based and all policies and procedures
 - A cursory review for compliance with all policies and procedures and a deep dive into the controls identified for top or key risks

Page 10

Scope & Strategy, cont'd.

- Challenges for complex and/or multinational organizations
 - Organizational challenges
 - Cultural differences
 - Language barriers
 - Different regulatory environments
 - Program costs

Page 11

Scope & Strategy, cont'd.

Page 12

Scope & Strategy, cont'd.

Employee Interview

To determine employee knowledge of and compliance with various policies, procedures and standards.

Facility Review

To determine compliance with data privacy & security and other facility requirements.

File Review

To review hard copy documentation (e.g., meeting notes, phone records, contracts, etc.).

System Review

To review electronic records, system access or programming.

Procedural Review

To review adherence to written procedures through colleague shadowing.

Page 13

Scope & Strategy, cont'd.

On-site

- A consideration for paper heavy organizations
- Increased access to key personnel
- Improved visibility
- Ability to conduct facility reviews
- Opportunity to provide 'live' post review training

VS.

Remote

- Works well for automated environments
- May provide more flexibility
- Efficient for subject matter reviews across multiple locations
- Reduced cost (e.g., travel)

Tools & Templates, cont'd.

Sample tools and templates for consideration:

- Closing meeting invite template
- Compliance reviewer guide
- Compliance reviewer training
- Dashboard template
- Data sample calculation worksheet
- Data sample template
- Employee deficiency notification
- Immediate action items template
- Interview invite template
- Pre-review meeting template
- Pre-review preparation instructions
- Post-review thank you note
- Post-review training deck
- Quality review checklist
- Report template
- Review questionnaires
- Review schedule
- Standard operating procedures (SOP)

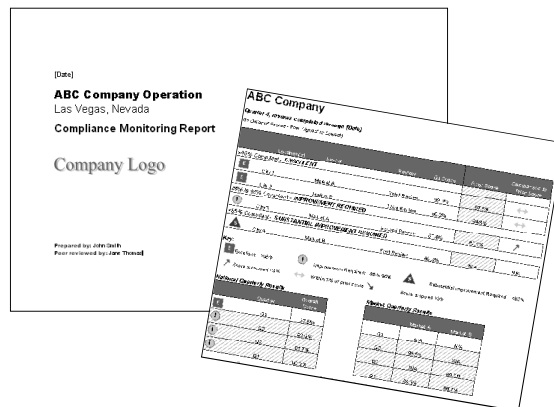

Tools & Templates, cont'd.

Reporting

- Office/division level reporting
- Quarterly reporting
- Global/zone/market level reporting
- Compliance & risk committee reporting

Training & Communication

Page 19

Continuous Improvement

- Once a program has been established, small changes rather than sweeping changes should occur over time to:
 - Meet changing business needs
 - Address a shifting risk environment
 - Coordinate with regulatory changes
 - Improve program efficiency
- Small improvements in the program are less likely to cost a significant financial investment or radical process changes

Page 20

Agenda

Helpful Tips

Tips

- Start with a core program
- Ensure those performing the review are well trained and have the necessary tools and templates to be successful
- Communicate results in a formal manner
- Utilize results to improve other compliance programs (e.g., training and communications, risk management, etc.)
- Follow-up on action items identified during the review
- Review the compliance monitoring program annually
- Consider having internal audit review the effectiveness of the monitoring program
