Workshop Agenda

I. Ethics & Compliance Risk Management Overview
   - Value Proposition
   - Risk Management Essentials: Getting Started
     - Defining Risk Management Practice
     - Core Program Objectives
     - Key Partnerships and Teams

II. Risk Identification
   - Understand Organizational Risks and Define Universe
     - Top Ethics and Compliance Risk Areas; Things that Affirm Risk
     - Defining Inherent and Control Risks
     - Internal and External Inputs
     - Management Support, Planning and Next Steps

III. Risk Assessment and Prioritization
   - Primary Practice Considerations
   - Legal Privilege and Risk Assessments
   - Conducting a Risk Assessment
     - Key Process Steps and Considerations
     - Establish a Risk Assessment Leader
     - Select Risk Assessment Participants
   - Assess Findings and Prioritize Risk
     - Risk Impact and Likelihood
     - Map Risk Assessment Findings and Prioritize
     - Management Review and Input

IV. Group Exercise
   - Identifying and Prioritizing Risk
V. Risk Management and Mitigation Strategies

- Effective Risk Management Practice
  - Risk Response: Approach Considerations
  - Enabling Effective Action Plans
  - Sample Risk Mitigation Actions
  - Reporting Activities

VI. Monitoring, Auditing, and Follow-up

- Process and Management Considerations
  - Overseas, monitor and track Risk Management Plans to completion
  - Periodic auditing of Risk Management Controls
  - Subsequent Risk Assessments to ensure ongoing effectiveness
  - Ensure ongoing monitoring, auditing, and reporting activities

VII. Wrap-Up and Final Thoughts

I. Ethics & Compliance Risk Management Overview

Benefits of Effective Practice:

- Portfolio view of compliance and ethics risks allows for effective identification, prioritization and management.
- Provides clarity on organizational risk appetite.
- Shared-vision with leadership on top risks, resource allocation, focus and ownership; promotes dialogue and synergies among business leaders in managing risk.
- Facilitates stronger change management and effectiveness across the organization from a compliance and operational view.
- Improves and enhances legal/regulatory compliance and risk responses both internally and externally; reduces operational issues and surprises.
- Integrates and ensures key ethics and compliance risks are managed and contribute to overall organizational strategy and operational objectives.
- Assures the organization is working on the right stuff, at the right time, and with the right resources; protects brand, reputation and assets.
Example Standards

- U.S. Federal Sentencing Guidelines for Organizations (USC)
  - An organization "shall periodically assess the risk of criminal conduct and shall take appropriate steps to design, implement, or modify each requirement of its compliance and ethics program to reduce the risk of criminal conduct identified through this process." (§8B2.1(c))
  - Risk management elements: Standards and Procedures (Internal Controls), monitoring, auditing, periodic evaluation. (§8B2.1(b)(1)(5))

Sample Government Agencies recognizing importance of Risk Management

- SEC, DOJ, DOL, DOE, FTC
- HHS OIG Compliance Program Guidance
- Federal Energy Regulatory Commission (Risk Inventory)

Other Standards

- EU and other International governing laws and standards
- UK Bribery Act and Foreign Corrupt Practices Act
- OECD Good Practice Guidance
- Competition Commission of Singapore
- Australian Standard – AS 3806-2006
- Competition Bureau Canada
- U.S. Sarbanes-Oxley Act of 2002
- World Bank Group Integrity Compliance Guidelines
- Stock Exchange Listing Standards (e.g., NYSE)
- Regulatory and legal standards unique to the business
- Enforcement officials' standards (e.g., U.S. Attorneys’ Manual)
- COSO Internal Controls Framework

More...

"The first step in the risk management process is to acknowledge the reality of risks. Denial is a common tactic that substitutes deliberate ignorance for thoughtful planning."

Charles Tremper

It is not about eliminating risk, but rather, taking steps to proactively and intelligently manage it!
Initial Step: Risk Management Planning...

Risk Management Planning involves identifying, assessing, and prioritizing risks followed by the coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events or to maximize the realization of opportunities.

Risk Management Overview - Practice Essentials

<table>
<thead>
<tr>
<th>Risk Management</th>
<th>Defining Risk Management Practice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Risk</td>
<td>Probability or threat of a damage, injury, liability, loss, or other negative occurrence that is caused by external or internal vulnerabilities, and that may be neutralized through preemptive action. <a href="http://www.businessdictionary.com">BusinessDictionary.com</a></td>
</tr>
<tr>
<td>Risk Management</td>
<td>Identification, assessment, and prioritization of risks, followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events or to maximize the realization of opportunities. <a href="http://en.wikipedia.org">Wikipedia.org</a></td>
</tr>
<tr>
<td>Risk Assessment</td>
<td>Identification, evaluation, and estimation of the levels of risks involved in a situation, their comparison against benchmarks or standards, and determination of an acceptable level of risk. <a href="http://www.businessdictionary.com">BusinessDictionary.com</a></td>
</tr>
</tbody>
</table>

Core Program Objectives:
- Leadership and Organizational Support – Promote positive outlook
- Solid infrastructure, planning and implementation strategies in place
- Ensure parties involved are engaged and understand objectives
- Meaningful risk identification and scoping activities
- Effective implementation and management of Risk Assessment process to include careful documentation of findings and risk prioritization
- Enable and oversee effective risk mitigation and management plans; drive ownership and accountability throughout the business
- Monitor, Audit, Report, and Follow-up

Other Definitions?
**Key Partnerships and Teams**

- Governing Body/Senior Leadership (Informed)
- CECO, General Counsel, Legal/Compliance SME’s
- Functional Group Partners: IT, HR, Internal Audit, Information Security, Finance, etc.
- Business/Operating Unit Representation: Leadership, management teams, regional managers, global locales, etc.
- Designated Risk Assessment Leader and team
- Consultants and other external SME’s as needed

**Other Partners?**
Risk Identification – Understand Risks and Define Universe

Considerations
- Top ethics and compliance risk areas
- Things that affect risk
- Defining Inherent and Control Risks
- Internal and External Inputs
- Management input and support
- Planning and next steps

Risk Identification – Top Ethics & Compliance Risk Areas

- Antitrust/Competition
- Conflicts of Interest
- Corruption/Bribery
- Culture/Ethics
- Discrimination/Harassment
- Ethics & Compliance Program Infrastructure
- Environmental, Health, Safety
- Financial Accounting/Controls/Compliance
- Government Contracts/Relationships
- Intellectual Property
- Privacy/Data Protection
- Records and Information Management
- Trade Compliance (Exports, Imports, etc.)
- Social Media Related Risk

What is your Risk Universe?
### Risk Identification – Things that Affect Risk

- Global operations, expansion, and differing cultures
- Financial and other related business demands
- Technology – Internal/External
- Economy/Competition/Consumer Demand
- Marketing and other business activities
- Mergers/Joint Ventures/Acquisitions/Alliances
- Laws/Rules/Regulations
- Emerging trends and industry practices
- Leadership/Management changes and turnover
- Unknowns

**Other?**

### Risk Identification – Defining Inherent and Control Risks

<table>
<thead>
<tr>
<th>Risk Type</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inherent Risk</td>
<td>The probability of loss arising out of circumstances or existing in an environment, in the absence of any action to control or modify the circumstances. (Business Dictionary.com)</td>
</tr>
<tr>
<td>Control Risk</td>
<td>Probability of loss arising from the inability of internal control systems to detect and prevent, detect fraud, and maintain integrity.</td>
</tr>
<tr>
<td>Residual Risk</td>
<td>The risk that remains after management's response to the risk. (COSO's Integrated Risk Management – Integrated Framework)</td>
</tr>
</tbody>
</table>

**Examples...**

### Risk Identification – Internal and External Inputs

**Sample Internal Inputs**
- Management input, surveys, interviews
- Internal audit and other functional Risk Management efforts
- Past internal incidents, investigations, audits, risk profiles
- Business operations, operating locations, etc.
- Technology, Security, and other functional areas

**Sample External Inputs**
- Legal/Regulatory requirements
- Enforcement activity and trends
- Social Media and marketplace trends
- Industry benchmarking and practices
- Cultural considerations

**Other?**
Identified Risks and Next Steps

- **Evaluate Risks** – Consider how risk plays out in the business (e.g., impact regulatory status, reputation, can it lead to prosecution, etc.). What are the enforcement trends?

- **Consider Culture and Values** – Tone at the Top, employee trust and morale, influences on culture, how values, ethics, and standards are embedded in the business, etc.

- **Consider Ethical Fault Lines** - Conflicting stakeholder obligations, pressures on business to meet quotas, state of compliance in the industry
  - Are ethical standards compromised in the organization?
  - Do employees feel pressure to make the numbers at any cost?

- **Management Support, Planning and Next Steps**
  - Establish Risk Assessment coverage and initiate activities

---

Identified Risks and Universe... *Now what?*

---

III. Risk Assessment and Prioritization
E&C Risk Assessment and Prioritization

Primary Practice Considerations

- Value of management input and importance of objectivity
- Solid Risk Assessment methodology in place; ensure coverage of identified risks and scope
- Ensure all Risk Assessment participants are engaged and understand objectives
- Launch, implement and drive a coordinated Risk Assessment effort; provide oversight
- Assess findings and prioritize risk; validate, document and report
- Initiate Risk Management and mitigation planning activities

Legal Privilege and Risk Assessments

- Legal privilege addresses an assertion to protect certain work product from disclosure when created under direction of counsel for legal purposes
  - Privilege not guaranteed; impacted by process, waivers (voluntary and involuntary), enforcement trends, applicability in global settings
- To maximize likelihood of maintaining privilege:
  - Counsel asserting privilege directs resources to maintain privilege
  - All persons involved in the process are aware of legal purpose and required to maintain confidentiality throughout
  - Work products/inputs are general, summarized and include legal opinions where appropriate. Work materials are discarded when purpose served
  - Appropriate labeling of all materials with privilege designation

Conducting a Risk Assessment

Key Process Steps

- Define scope and objective
- Identify and engage participants
- Confirm resources
- Gather information
- Identify risks
- Assess and prioritize
- Mitigate
- Monitor/audits
- Report
- Align with business
- Internal and external inputs
- Risk catalog
- In person interviews, workshops
- Self-surveys or questionnaires
- Industry/Enforcement trends
Conducting a Risk Assessment

Establish a Risk Assessment Leader

**Key Attributes:**
- Keen knowledge of the business and operations
- Understanding of general laws, regulations and guidelines driving the business
- Demonstrated leadership, empowerment, and influence in the organization
- Strong decision-making, analytical, and project management skills
- Protects confidential and sensitive information
- Ability to commit and dedicate time to activity

**Establish a Risk Assessment Leader**

**Key Responsibilities:**
- Manage and drive general Risk Assessment activities
- Facilitate engagement with business leaders and unit managers
- Validate key management input for Risk Assessment impact and likelihood
- Provide input on management controls and effectiveness
- Oversees and supports Risk Management and Mitigation Action Plans

Select Risk Assessment Participants

**Identification:**
- Leaders/managers in the business with knowledge and influence
- Target audience in business to meet Risk Assessment objectives
- Subject-matter experts, counsel, consultants as needed

**Engagement:**
- Provides input on risk, management controls, and effectiveness
- Helps to validate findings and input for Risk Assessment impact/likelihood
- Supports Risk Management and Mitigation Action Plans
- Ensures confidentiality and secure sensitive information
Assess Findings & Prioritize Risk

**Risk Impact and Likelihood**

<table>
<thead>
<tr>
<th>Impact</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Damage, injury, liability, loss or other negative occurrences that is caused by external or internal vulnerabilities.</td>
<td><a href="http://www.businessdictionary.com/definition/risk.html">http://www.businessdictionary.com/definition/risk.html</a></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Likelihood</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Likelihood is the chance that something might happen. Likelihood can be defined, determined, or measured objectively or subjectively and can be expressed either qualitatively or quantitatively (using mathematics). ISO 13000 Risk Management Dictionary: <a href="http://www.praxiom.com/iso-31000-terms.htm">http://www.praxiom.com/iso-31000-terms.htm</a></td>
<td></td>
</tr>
</tbody>
</table>

**Risk Impact and Likelihood: Ranking Considerations**

- **Impact**: Potential effect that a risk could have on the organization if it arises. Not all threats will have the same impact as the organization may have differing needs.
  - **High**: Serious impact on operation, reputation, or funding status
  - **Medium**: Significant impact on operations, reputation, or funding status
  - **Low**: Less significant impact on operations, reputation, or funding status

- **Likelihood**: Probability that a risk can occur. Factors taken into account in the determination of likelihood are: Source of the threat, capability of the source, nature of vulnerability and existence and effectiveness of current controls. Consider using a scale to help rank such as 1 – 5.
  - **High**: An event is expected to occur in most circumstances
  - **Medium**: An event will probably occur in many circumstances
  - **Low**: An event may occur at some time

A combination of likelihood and impact provides a value for each risk factor and supports prioritization.

**Map Risk Assessment Findings and Prioritize:** Define Criteria First and then Rank - High, Medium, and Low

<table>
<thead>
<tr>
<th>Rank</th>
<th>Revenue</th>
<th>Legal/Regulatory</th>
<th>Format</th>
</tr>
</thead>
<tbody>
<tr>
<td>High</td>
<td>Significant loss of customers/large-scale loss</td>
<td>Significant legal impact and exposure</td>
<td>Significant financial impact and legal exposure</td>
</tr>
<tr>
<td>Medium</td>
<td>Loss of revenue among large segments of customers</td>
<td>Contingent legal impact and exposure</td>
<td>Complete financial impact and legal exposure</td>
</tr>
<tr>
<td>Low</td>
<td>Loss of confidence among small segments of customers</td>
<td>Minor financial impact and legal exposure</td>
<td>Minor financial impact and legal exposure</td>
</tr>
</tbody>
</table>

Mapping Inherent Risks – Impact & Likelihood

Circles represent five identified inherent risks mapped by impact and likelihood

Assess Findings & Prioritize Risk – Sample Heat Map

Prioritizing Inherent Risks – Impact & Likelihood

Inherent risks are prioritized based on impact and likelihood

Assess Findings & Prioritize Risk – Sample Heat Map

Risk Assessment Results – Management Effectiveness/Controls

Effectiveness of existing controls and management are color-coded

Assess Findings & Prioritize Risk – Sample Heat Map
Assess Findings & Prioritize Risk – Managing Results

Risk Assessment Findings: Next Steps

- Coordinate and validate findings and prioritization with management, leadership, specific business units, etc., as applicable
- Organize and consolidate Risk Assessment findings and mapping for broader portfolio view, management efforts, reporting, etc.
- Initiate Risk Management and mitigation planning activities

IV. Group Exercise: Identifying and Prioritizing Risk

V. Risk Management & Mitigation Strategies
Risk Management and Mitigation Strategies

Risk Tolerance/Threshold

Risk Appetite
The level of risk that an organization is prepared to accept, before action is deemed necessary to reduce it. It represents a balance between the potential benefits of innovation and the threats that change inevitably brings on. (http://en.wikipedia.org/wiki/Risk_appetite)

Risk Response: Approach Considerations

Various frameworks exist that offer approaches to identifying, analyzing, responding to, and monitoring risks and opportunities. Generally, management will select a risk response strategy for prioritized and specific risks identified and analyzed, which may include:

- Avoidance: Exiting the activities giving rise to the risk
- Reduction: Taking action to reduce likelihood or impact related to risk
- Share or Insure: Transferring or sharing a portion of the risk to finance it
- Accept: No action is taken due to cost/benefit analysis

Enabling Effective Action Plans – Primary Considerations

- Prioritize needs based on impact, likelihood, and effectiveness of existing controls in place; determine risk response strategy and develop plans
- Collaborate with oversight team/leadership on overall planning and resources for managing/mitigating prioritized risks to include timing, strategic planning, risk response strategy, etc.
- Assure accountability and ownership: risk management owners in business are assigned and specific Risk Management Plans are created and implemented
- Secure leadership engagement and support
- Engage in ongoing oversight, monitoring and reporting activities
**Risk Management and Mitigation Strategies**

Management is responsible and accountable for managing and mitigating risks! Compliance validates and/or audits process

**Sample Risk Mitigation Actions**

- Implementing new or improved policies and procedures
- Targeted training and education
- Stronger / automated internal controls
- Organization structure changes
- Performance management / goal setting
- Leveraging Technology

**Other?**

---

**Risk Management and Mitigation Strategies**

**Reporting Activities - Considerations**

- **Audience**
  - Board, Leadership Team, CEO, GC, Compliance Committee, Business Units, Other...  
- **Organization Type**
  - Public entity (e.g., public company reporting requirements, etc.)
- **Risk Management/Mitigation Plans**
  - Provide periodic and ongoing updates and reporting on status; metrics shared should be focused, measurable, and relevant
  - Include open action plans, owners, target dates, status/progress, etc.

---

**Risk Management and Mitigation Strategies**

**Reporting Activities – Considerations (Cont.)**

- **Reputation**
  - What is the reputational impact of risk management failures and breakdowns? (e.g., shareholders, customers, employees)
- **Business Concerns and Legal Liabilities** (e.g., due diligence activity, litigation, business impact of catastrophic events occurring)
- **Tone of Reporting** (e.g., keep reporting positive and upbeat where possible)
- **Report Format/Technology** (e.g., paper or electronic, summary version or detail; follow established and applicable Records Management guidelines/policies)
VI. Monitoring, Auditing, and Follow-up

**Monitoring, Auditing, and Follow-up**

**Process and Management Considerations**
- Oversee, monitor and track Risk Management Plans to completion
- Conduct periodic auditing of Risk Management/Mitigation controls
- Schedule and conduct subsequent and periodic Risk Assessments to ensure ongoing effectiveness
  - Frequency based on evolving business, risk priorities, etc.
- Engage in ongoing monitoring, auditing, and reporting activities

**Key Take-Aways:**
- Promote and champion the value of effective Risk Management practice
- Identify and understand organizational risks and related obligations
- Conduct periodic and meaningful risk assessments across the organization and prioritize risks based on organizational impact and likelihood
- Enable effective risk management strategies and mitigation plans
- Provide ongoing risk management and assessment reporting to stakeholders that is timely, transparent, and objective
- Monitor, audit, and follow-up

"Don’t let perfect be the enemy of good"
VII. Wrap-Up and Final Thoughts

“If you ever think you’re too small to be effective, you’ve never been in bed with a mosquito.”

Anita Roddick
