WHAT IS A COMPLIANCE PROGRAM

Compliance and Ethics Program:

“a program designed to prevent and detect criminal conduct” that consists of seven key elements

- Elements synonymous with an effective compliance program
- Federal Sentencing Guidelines for Organizations outline minimum requirements for an effective compliance and ethics program (Nov. 1, 2010).
 - Convicted organization may be eligible for a reduced sentence if it has established an effective compliance and ethics program.
- Department of Justice, Evaluation of Corporate Compliance Programs (June 2020)
 - The effectiveness of the compliance program is considered by prosecutors during an investigation, when determining charges, negotiating plea or other agreements, and in federal sentencing

13

GOALS OF A COMPLIANCE PROGRAM

Act as a Compliance Resource for campuses

- Help campus offices comply with the various laws and regulations

Try to create campus-wide guidance, information, and efficiencies

- Avoid redundancy

Improve Communication on Compliance issues and provide clarity

Foster communication within system and across the campuses on issues related to compliance

Operationalize the seven elements

14

MATURITY OF A COMPLIANCE PROGRAM

- **Compliance Program Maturity** is the concept of what stage of development your institution's Compliance Program is at, on a scale from the beginning stages where the program has just begun to implement the seven elements (infancy) all the way to full maturity of the Program.

There are many models/ways to measure "Maturity."

- Program maturity assessments are meant to inform an institution about where a program stands and what it needs to do in the future to improve and strengthen its program structure, systems, policies, and processes to meet the institution's needs and expectations.

REMEMBER: Building a compliance function will take time, and will not happen overnight. Statistics say full-fledged compliance function will take 3-5 years to build a mature program.

15

WHETHER YOU HAVE A NEW OR REFRESHED PROGRAM – WHERE DO YOU START?

16

STEPS FOR A NEW OR REFRESHED PROGRAM

1. Build a Compliance Structure

- Mission and Scope
- Appropriate oversight, reporting, and leadership support

17

STEPS FOR A NEW OR REFRESHED PROGRAM

2. Assess Your Risks and Create a Compliance Plan

- Identify
 - Consider universe of risks – Federal, state, higher education risks of similarly situated peer institutions, risks to your institution (often driven by your institution's strategic initiatives (what is most important to your institution, noteworthy programs/activities)
 - Resources for Identification and Assessment:
 - [Higher Education Compliance Alliance Matrix](#)

18

STEPS FOR A NEW OR REFRESHED PROGRAM

3. Prioritize your Risks and Initial Areas of Focus

- Assess Your Risks and Create a Compliance Plan
 - Talk to the risk owners to assess risks
 - Use a standardized criteria for assessment
- What are the biggest priority risks that aren't being sufficiently mitigated?
- What compliance structure will mitigate those compliance risks?
 - Policy / Procedure
 - Additional Staff/more resources (IT solution)
 - Enhanced Training and Communication
 - Stronger Tone at the Top
 - Best Practices document
 - More audits of area
 - Other?

19

STEPS FOR A NEW OR REFRESHED PROGRAM

Considerations as you Prioritize your Risks and Formalize a Plan

- What is your timetable?
- How to build Accountability into your program
- How to evaluate success of your plan after implementation?
 - What data/KPIs/metrics do you use
- How and to whom will you communicate what you have done?

AN EXAMPLE OF IMPACTFUL

HOTLINE REPORTING

26

TURNING THE HOTLINE INFORMATION INTO REPORTABLE DATA FOR THE BOARD

- ▶ Board needs enough information for oversight and assurance, not “in the weeds” operational data
- ▶ We report number of cases year over year, and account for repeat reports of the same underlying issue

We added the amount of COVID-19 reports made to the hotline because we knew the Board would be interested in this statistic

- ▶ We developed case closure criteria so we could understand the outcomes of each Hotline case

Disclaimer: These charts to not reflect Boston University's Hotline data. While the presentation of the data is how it is presented to the Board, the underlying data has been altered for purposes of this presentation.

27

TURNING THE HOTLINE INFORMATION INTO REPORTABLE DATA FOR THE BOARD

- ▶ We show referral year over year so the Board understands the main departments that are the genesis for the issue (i.e. Provost = academic or faculty issues)

Disclaimer: These charts to not reflect Boston University's Hotline data. While the presentation of the data is how it is presented to the Board, the underlying data has been altered for purposes of this presentation.

28

TURNING THE HOTLINE INFORMATION INTO REPORTABLE DATA FOR THE BOARD

► **These are our case outcome dispositions:**

Substantiated	There is truth to the allegation(s). Evidence collected supported/proved the allegations to be true, and that the findings constitute a BU Policy violation, law, or other wrongdoing.
Partially substantiated	There is truth to the allegation, but the supported/proved facts <i>do not</i> constitute a BU Policy violation, law, or other wrongdoing.
Not substantiated	Evidence collected did not support the allegations.
Expedited Closure	Used when it is clear from the report that the allegations, even if true, would not constitute a violation of any university policy and it is clear that no further University action is necessary. As a general rule, reports that include allegations of misconduct by a named individual are not appropriate for expedited closure.
Pending	Case outcome has not yet been determined.
Administrative Routing and Closure	Used for issues that have not otherwise been brought to the attention of the University, but can be addressed by existing processes, and when the reporter, if identified, is not concerned with confidentiality or retaliation. The reporter is informed at the time of closure that the case has been referred to the particular office and provided with specific contact information as appropriate.
Administrative Routing for Routine COVID-19 Reports	Direct referral to the appropriate department and not through the Compliance Committee – for COVID concerns that are routine in nature and do not involve violations of other University Policies. These reports are routed (1) department chairs for faculty; (2) Dean of Students for students; and (3) Managers for staff; then closed.

Keep your data consistent by adhering to the criteria you've established. This will help maintain the data integrity.

29

TURNING THE HOTLINE INFORMATION INTO REPORTABLE DATA FOR THE BOARD

► **We developed case closure criteria so we could understand the outcomes of each Hotline case and report on the outcome numbers.**

Case Outcomes	2018	2019	2020
Not substantiated	30	27	22
Partially Substantiated	28	18	14
Substantiated	4	4	10
Expedited Closure	2	16	13
Pending	0	14	0
Administrative Routing	n/a	n/a	13
Administrative Routing for Routine COVID-19 Reports	n/a	n/a	12
TOTAL CASES	64	79	84

Disclaimer: These charts do not reflect Boston University's Hotline data. While the presentation of the data is how it is presented to the Board, the underlying data has been altered for purposes of this presentation.
