Culture is a Key Driver of Impact

Regulators have long identified culture as a driver of Compliance & Ethics strategy.

“... undertake an appropriate assessment of corporate efforts to create an organizational culture that encourages a commitment to compliance with the law and ethical conduct...”

US Federal Sentencing Guidelines

“Culture needs to be set from the top. Members of the corporation need to know that the corporation is committed to ethical standards... and that executives... are role models for ethical business conduct”

UK Serious Fraud Office

“... A corporation is directed by its management and management is responsible for a corporate culture in which criminal conduct is either discouraged or tacitly encouraged.”
