The title was something about not forgetting... What are we talking about again?

- What do we mean by “ethics” in the ethics and compliance context?
- Why are we focused on ethics?
- How am I supposed to do this?

I'm listening, but I still haven't heard anything practical. How do you expect me to do this?

Three simple steps:

- Focus on what you can control, yourself
- Focus on your organization
- Focus on situations
