What They’re Saying about Culture

“Culture, more than rule books, determines how an organization behaves.”
— Warren Buffett, Berkshire Hathaway Letter to Shareholders

“I came to see, in my time at IBM, that culture isn’t just one aspect of the game, it is the game. In the end, an organization is nothing more than the collective capacity of its people to create value.”
— Louis Gerstner, former CEO, IBM

“Culture eats strategy for breakfast.”
—Attributed to Peter Drucker
What is “Culture”?  

“A pattern of shared basic assumptions that the group learned as it solved its problems of external adaptation and internal integration, that has worked well enough to be considered valid and, therefore, to be taught to new members as the correct way to perceive, think, and feel in relation to those problems.”

— Edgar Schein

‘Socially acquired behavior patterns.’

— Henry Pratt Fairchild

What is Organizational Culture?  

“It’s how we do things around here.”

Comprised of  
- Founders’ beliefs  
- Mission, Vision and Values  
- Priorities  
- Legends and heritage  
- Rituals  
- Language  
- Other aspects?  

Examples  
- Customer Service (Disney, Ritz Carlton, Nordstrom)  
- Innovation (3M, Apple)  
- Sustainability (Dupont)  
- Safety (Alcoa)  
- Teamwork (Goldman Sachs)

Where Organizational Culture Comes From  

Influencers  
- Founders

What Can You Do About Ethical Culture?

- To sustain it . . . You have to *improve* it.
- To *improve* it . . . You have to *manage* it.
- To *manage* it . . . You have to *assess* it.
- To *assess* it . . . You have to *understand* it.
- To *understand* it . . . You have to *identify* it.

Ethical Culture Research – Select Findings

1999 Arthur Andersen Study (Trevino, Weaver et al)
As a set, the ethical culture factors emerged as the most important influential factors. Of these factors, leadership, fairness perceptions, the perception that ethics is discussed in the organization, and the perception that ethical behavior is rewarded were the most significant factors in the study.

2009 Ethics Resource Center National Business Ethics Survey “Ethical Culture Supplement”
In a “strong” ethical culture, ethical values matter and that is apparent in the actions of employees (especially management), company policy and procedures, and decisions about who gets rewarded, who gets punished, and how to weather tough times.

2012 Institute of Business Ethics “Ethics at Work Survey”
Statistically significant links can be made between indicators of an ethical culture and employees’ perceptions of behavior—namely, the practice of honesty, pressure to compromise ethical standards, awareness of misconduct and speaking up about misconduct.

Ethical Culture Research – Key Drivers

1999 Arthur Andersen Study (Trevino, Weaver et al)
What helps the most in affecting an organization’s ethical and compliance outcomes are consistency between policies and actions as well as dimensions of the organization’s ethical culture such as ethical leadership, fair treatment of employees, and open discussion of ethics in the organization.

2003 CEB “Stewarding a Culture of Integrity”
- Drive Comfort Speaking Up
- Train Leaders to Model and Communicate Corporate Values
- Foster a Perception of Organizational Justice

2003 Ethics Resource Center National Business Ethics Survey “Ethical Culture Supplement”
- Ethical culture continues to have a profound impact on pressure, observed misconduct, reporting of observed misconduct, and rates of retaliation against reporters.
- Actions—and perceptions—of top managers drive the ethical culture of the company and have a significant impact on outcomes.
- Top management culture is associated with the greatest increases in reporting misconduct.

The Cycle of Influence & Strengthening

• How does the cycle unfold?
• How does the cycle build on itself?
• Which most influences the other(s)?

“I continue to believe that the most important way of staying focused in this sea of possibilities is to keep exploring how leadership and culture are fundamentally intertwined.”

— Edgar Schein, Organizational Culture and Leadership
Organization Culture → Ethical Culture

How do these work together?

Organization Culture

- "It's how we do things around here."
- Core beliefs (Mission and Values)
- Perspective on stakeholders
- Priorities
- Communications
- Rituals
- Language
- Espoused beliefs
- Risk appetite

Ethical Culture

- "Doing the right thing."
- Meeting expectations
- Laws, regulations
- Industry, professional standards
- Contracts, agreements
- Standards and policies
- Recognizing, evaluating and resolving ethics issues
- Discussing questions, seeking guidance
- Raising concerns
- Fixing problems that create ethics issues

Industry Culture Characteristics

How do these affect Ethical Culture Characteristics?

Utilities

- Monopoly
- Highly regulated
- Bureaucracy
- Organized labor
- Power reliability
- Public interests/loby
- Generator site operations
- Regional operations
- Environmental (production, post-consumer waste)

Energy

- Financial and operational risk; sometimes 'lumpy' results
- Less regulatory oversight
- Extractive industry; commodity dependent
- Global business, often in lesser developed regions
- Field-based operations
- Environmental impact (exploration, extraction, refining, post-consumer waste)
- Human Rights

Engaging Leadership with Culture Strengthening

- Understanding Ethics
  - Awareness
    - Black & white
    - Minor gray areas
    - Levels of gray

- Understanding Role of Influence
  - Of direct manager
  - Of leadership
  - Of "culture"
  - Of peers
  - Of other others

- Understanding Impact
  - (Including subtle forms)
  - Degree of impact (how strong?)
  - Range of impact (how wide?)
  - On various stakeholders
