*Debbie Troklus, Chair of the
Compliance Certification Board
(CCB)[®] on getting certified*

“As our profession has grown, so has the need for professional certifications and education that focus on a variety of compliance industries such as general healthcare, privacy, research, and corporate compliance, as well as international. We see individuals not only seeking education or certification in one area, but in many and have in response to this expanded and increased our educational offerings for Academies, and for those who qualify, given the option to sit for a certification exam at the end of the Academy.

“I always had high hopes for these certifications, but the numbers of certified individuals and organizations recognizing these certifications far outweigh my expectations. The CCB certifications have really become the gold standard. With more than 12,300 individuals actively holding a CCB credential(s), the increase in organizations preferring individuals hold a CCB credential for hiring and the more than \$4,000,000 invested in the development of the Compliance Certification Board credentials, the numbers go to prove that there is now a compliance profession established. We don’t get asked, ‘What is compliance?’ anymore, everyone knows.”
